TIPS TOP TREES

Dear Friends,

We have recently read that the American public spends 61 million dollars more a year on "tips" than on nursery crops and services. WOW! It looks very much like we had better wipe the smog off our windows and smug off our faces and sit up and take notice of what's going on. People are spending money -- plenty of it -- but it looks as though we are not getting as much of it as we should be. Whose fault? Evidently it's our own because it's a known fact that almost everyone loves flowers and trees. All we have to do is tell them what we've got, that plants are the best investment they could ever make, that a garden is the best insurance in the world, that they (and their neighbors) will be happier -- much happier -- with plants, trees and flowers around their home, and most important of all that they can do much of it themselves if we give them the information and confidence they need. Looks simple doesn't it. But it isn't. It can't be if a bunch of people with hardly any investment can go out and earn a living, collecting \$61,000,000 more than we can with all our big investments, headaches and responsibilities.

What does it take then. Well for one thing -- selling or salesmanship and all its ramifications. Another is organized publicity through your local, state or national associations (gives the public confidence in the industry and in plants in general and puts them in the right frame of mind to buy). Third is yourself.

In 1955 join an association to work together to "PLANT AMERICA", to "MAKE AMERICA MORE BEAUTIFUL" and to make TREES TOP TIPS.

Most sincerely,

John & Pete Vermeulen

ROOT GRAFTS

We offer only expertly grafted plants with strong, short cions grafted on healthy piece roots. Entire cion and union is dipped in warm (not hot) parafin immediately after grafting and then stored in boxes in moist peatmoss until callused after which the boxes are placed in cool storage. All shipments will be made between March 15th and April 1st unless otherwise requested or specified or unless, due to inclement weather, period is extended.

POT GRAFTS

	each per 10	100
Sturdy, full measure cions on strong understocks well established in 2¼" rose pots. READY MAY 1-15 AND AFTER.		
ACER PALMATUM - Japanese Maple		
— ASHI-BENI - A fine clear red noted for hardiness and good habit.		
8-12"90	.75
— ATROPURPUREUM - Bloodleaf Jap. Red Maple		
8-12"90	.75
— BURGUNDYLACE - Laceleaf Jap. Red Maple. Beautiful burgundy-red, gracefully lacinated striking a happy medium between the cutleaf and the bloodleaf. Habit is upright but it is more compact and does not grow as tall as the atropurpureum. Very hardy. Young plant has grown very well at Sardinia, N. Y. at high altitude withstanding 30° below zero.		
8-12"	1.25	1.00
— DISSECTUM - Green Cutleaf Jap. Maple		
8-12"90	.75
— PURPUREUM - Red Cutleaf Jap. Maple.		
8-12"90	.75
ACER SAC. MONUMENTALE - Sentry Sugar Maple. The most majestic of the sugar maples turning glorious shades of yellow, orange and scarlet in the fall. Tall and columnar with ascending branches.		
6-10"	1.50	1.25
CEDRUS - Cedar		
— ATLANTICA GLAUCA - Blue Atlas Cedar. Tall evergreen tree, narrow and stately with greyish-blue needles a little less than 1" long. Cones are 2-2½". An exceedingly striking specimen tree. Hardy to Northern New Jersey and Long Island.		
6-10"	1.25	..
— ATLANTICA FASTIGIATA - Sentinel Atlas Cedar. Very tall evergreen tree with ascending or upright branches giving a narrow-pyramidal or nearly columnar habit. Needles less than 1" long, dull green slightly bluish. A very handsome tree that is hardy to Northern New Jersey and Long Island.		
6-10"	1.25	..
— LIBANI - Cedar of Lebanon (Libanotica). Dark green needles on picturesque, graceful very tall tree of pyramidal habit. Branches spread wider than height of tree often resting on the ground. Cones are 3 to 4 inches long. Hardest of the Cedars. Grafts offered originate from tree at Arnold Arboretum.		
6-10"	1.25	..
HAMAMELIS MOLLIS - Chinese Witchhazel. Golden yellow fragrant threadlike flowers bloom at the first sign of warm weather in late winter.		
8-10"	1.10	.90
RHODODENDRON - See page 16 & 17.		
TSUGA CANADENSIS - Canadian Hemlock		
— COMPACTA - Compact Canadian Hemlock. A real dense, compact, slow growing plant with short, stocky closely spaced needles of good color. Hardy.		
6-8"	1.20	1.00
— PENDULA (SARGENTI) - Sargent Weeping Canadian Hemlock. One of the most graceful of the pendulous evergreens with long slender weeping branches. Grows rarely above 8 to 10 feet and broader than high.		
8-12"	1.20	1.00
— PYRAMIDALIS - Pyramidal Canadian Hemlock. An excellent pyramid slower growing, more compact, with darker foliage and as hardy as the species.		
8-10"	1.20	1.00

ROOTED CUTTINGS

Strong full measure cuttings, carefully graded and selected. Hormone treated for abundant pliable roots that allow safe shipping and planting and sure stands.

HARDY AZALEAS

We think we have a very nice selection of the known hardy azaleas. Our 2¼" pot, transplants are sturdy liners grown from cuttings stuck last year and are sure to please.

BENI-KIRISHIMA. Very late large double orange-red on low compact plant with dark green evergreen foliage.

2¼" pot30	..
---------------	-----	----

BUCCANEER. Large brilliant orange-red, early. Tall and spreading.

2¼" pot30	..
---------------	-----	----

GABLE HYBRIDS. Included in this group are some of the best azaleas yet introduced. We have chosen those that we believe to be the hardiest and the most beautiful.

—**CAROL (R8G)** Pure, very bright hose-in-hose pink like Caroline Gable but grows much lower and more compact.

2¼" pot30	.25
---------------	-----	-----

—**CAROLINE GABLE (96G)** Hose-in-hose brilliant pink with good foliage.

2¼" pot30	..
---------------	-----	----

—**CORSAGE (16G)** Single, large orchid flowers. Blooms profusely, very showy.

2¼" pot30	.25
---------------	-----	-----

—**ELIZABETH GABLE (21G)** Large single rose-pink. Very hardy, truly evergreen deep green foliage.

2¼" pot30	.25
---------------	-----	-----

—**F3G** Hose-in-hose blood red. Plants dwarf to medium. Much like James Gable (F1G).

2¼" pot30	.25
---------------	-----	-----

—**HERBERT (47G)** - Large semi-double red-purple, frilled flowers. Strong bloomer and grower. Very hardy.

2¼" pot30	.25
---------------	-----	-----

—**LA LUMIERE (100G)** Small single bright red flowers. Rather slow growing plant with good habit.

2¼" pots30	.25
----------------	-----	-----

AZALEA (cont'd)

GABLE HYBRIDS (cont'd)		each per 10	100
—LORNA (C8G) Beautiful deep pink, fully double flowers borne in profusion on a compact evergreen plant. Blooms last long without fading.			
flat transplants (call only)20
2¼" pots30	.25
2yr, 4-6" XX75	.60
2yr, 6-10" XX90	.75
—LOUISE GABLE (13G) Large double deep salmon-pink satin textured flowers. Very hardy and very attractive.			
2¼" pots30	.25

Sold out this season			
—MILDRED MAE (69G) Large lavender flowers spotted bright red in the throat. Broad shapely plant with dense evergreen foliage. Blooms very early and is very hardy.			
flat transplants (call only)20
2¼" pots30	.25
—POLARIS (118G) Hose-in-hose pure white flowers somewhat larger than snow and much hardier. Plant is larger and more open.			
flat transplants (call only)20
2¼" pots30	.25
—ROSEBUD (B5G) Dwarf, almost miniature, with fully double soft rose pink blossoms that resemble small double roses especially when opening. Extremely floriferous. Will not crowd the smallest garden.			
2¼" pot (limit 25)30	..
—ROSE GREELEY (D3G) Pure white, hose-in-hose. Plant is compact with good branching habit and hardy. The best white yet offered to replace snow.			
2¼" pot (limit 50)30	.25

HINO-CRIMSON. Our new bright crimson-red kurume that will not fade even in the brightest sun. Introduced in 1944 and fast taking the place of hinodegiri for it is hardier and has far better color both in flower and foliage which is a glossy dark green and turns an attractive bronze in winter. After blooming profusely in early Spring the plant will have occasional blooms thru the Summer into early Fall. Excellent for forcing.

COTONEASTER		
—ADDRESSA PRAECOX - Early Creeping Cotoneaster. Low spreading shrub growing to about 1½ to 2 ft. Attractive glossy green foliage, small pink flowers and large red fruits in fall make it very handsome and desirable.		
2¼" pot, rtd. ctgs.30	.25
3" pot, 1yr50	.40
2yr gr. 3½" pot, 15-18"	1.05	.90
—APICULATA - Cranberry Cotoneaster		
1yr gr., 3" pot60	..
—HORIZONTALIS - Rock Cotoneaster. Low, spreading habit, dark green, small glossy leaves and attractive red berries that last long into winter make this plant ideal for rockeries, bank, border and other low plantings.		
2¼" pots30	.25
—SALICIFOLIA FLOCCOSA - Hardy Willowleaf Cotoneaster. Hardy evergreen shrub with large dark green leaves and bright red berries.		
2¼" pot, own root40	..
1yr 3" pot60	..
—SIMONSI - Tall, compact, spreading, semi-evergreen. Bright red fruit.		
1yr sdlg	1.2½	..
CRATAEGUS OXYCANTHA PAULI - Paul's Scarlet Hawthorne. A very good small tree to 15 feet with bright scarlet double flowers in June and colorful red fruit into winter.		
2-3' X	1.00	.75
3-4' X	1.25	..
CRYPTOMERIA JAP. LOBBI COMPACTA - Lobb's Cryptomeria. Tall, beautiful and majestic pyramidal evergreen tree which is excellently used for accent, boundaries or specimens. The foliage, similar to the giant Redwoods of the West coast, turns bronze in winter. Hardy.		
1yr gr, 3" pot	1.10	..
2yr gr, 3" pot, 10-18"	1.50	..
FRANKLINIA ALATAMAHA - Gordonia or Franklin's Tree. One of the finer small trees for the home and garden. Large single camelia type white flowers with showy golden yellow stamen are most attractive against lustrous dark green foliage which turns a bronzy-crimson in fall. Flowers appear from late August to frost. Not hardy everywhere but perfectly so here. Prefers moist, peaty, acid soil.

RHODODENDRON

GRAFTED HYBRIDS

IMPORTED STOCK

1YR GRAFTS FROM 3½" POTS

Again we will import from Holland carefully selected 1 yr grafts of hardy hybrid varieties. They will be received in December, potted in 3½" clay pots in a specially prepared Rhododendron soil and peat mixture and placed in a cool greenhouse for root development. There they will develop a firm root ball after which they will put on an initial growth. After frost danger the sashes from the house will be removed and replaced with lath shade. You will receive healthy, well developed branched plants about 8-12", sufficiently hardened to permit outdoor planting under shade. **READY FOR SHIPMENT ABOUT MAY 15th.**

EVERY PLANT - A GROWING PLANT

\$16.50 per 10, \$75.00 per 50, \$135.00 per 100

(varieties may be assorted)

AMERICA - excellent red

CARACTACUS - crimson, good compact habit

CATAWBIENSE ALBUM - pure white, good habit

DR. DRESSELHUYS - aniline red, tall

TSUGA CANADENSIS COMPACTA - Compact Canadian Hemlock. A slow growing, dense, compact hemlock with good habit and color. Hardy.		
1yr graft, 3" pot	1.50	..

Compacta

Pyramidalis

TSUGA CANADENSIS PYRAMIDALIS - Pyramidal Canadian Hemlock. Distinctively beautiful pyramidal form. More dense and compact than the species but a good rate of growth and good color. Shapes up quickly. Hardy.

1yr graft, 3" pot 1.50 ..

VERTICAL YEW S

— TALL — NARROW — HARDY —

Developed to replace troublesome Junipers, the rapidly overgrowing arborvitaes and the much less hardy Irish Yew. Use for accent, specimens, background. Excellent for hedges as it forms a compact, tight, narrow hedge - a living wall.

FLUSHING - Flushing Yew. Large, sturdy needles and strong growth make Flushing a rich, dark green column. Grades H, K, L.

GRANDIFOLIA - Bigleaf Yew. Strong sturdy plant with long dark green needles. Rich and unusual. Sold out this season.

PYRAMIDALIS - Pyramid Yew. Fast growing with vertical branches and graceful foliage. A rich, showy, full bushed pyramid. Sold out this season.

ROBUSTA - Obelisk Yew. Similar to pyramidalis but with heavier branches and habit. Needles are large and glossy. Grades A, D.

STRICTA - Narrowbush Yew. Compact, slower growing plant with short medium green needles. Grades A, G, H.

VIRIDIS - Grassgreen Yew. Year-around fresh green color. Strong sturdy growth of vertical branches in slender habit make it one of the best. Grades A, D, H, J.

TERMS AND CONDITIONS OF SALE

5 AT 10 RATE - 50 AT 100 RATE - 500 AT 1,000 RATE

PRICES quoted herein cancel those in all previous lists, are subject to change without notice and are quoted to members of the trade only. Proof of such other than mere statement must be established.

TERMS to those with established credit are 2% 10, net 30 days from date of shipment or invoice which ever is later, packing charged at cost. All others are required to remit in full (**no discounts**) with the order for which we in turn will pack free of charges or to remit 50% (**no discounts**) with the order with the balance plus packing charges paid C.O.D.

(Please note: Prepaid orders earn their discount in the form of packing without charge. No further discounts other than special offer discounts are acceptable.

RATES: 5 to 49 of one species, variety and grade are priced each at the 10 rate, 50 or more at the 100 rate when listed and 500 or more at the 1000 rate when listed. Unless otherwise stated not less than 5 of any one species, variety and grade will be sold.

SHIPMENTS travel at the risk and cost of the purchaser and will be forwarded via railway express. Requests for parcel post shipment must be accompanied by sufficient postage (usually 10% - balance will be refunded). Truck deliveries at cost may be arranged. Orders may be picked up at the nursery by previous arrangement only.

As the stock permits, orders will be shipped in order of receipt. We can not guarantee prompt shipment of late orders. Order early.

CLAIMS must be made in writing within 10 days of receipt of shipment. Inspect damaged or overdue containers at time of receipt and obtain report from or initiate claim to the agent.

GUARANTEE: We shall willingly replace any stock that proves untrue to name but will in no case be liable for more than the original purchase price.

NOTICE: All stock is offered subject to prior sale. Orders will be accepted in order of receipt and only on condition that they may be voided due to crop failure, inclement weather, drought, fire, frost, strike, etc. We reserve the right to delay shipments to the best interest of the plants.

Yew (see Taxus)		

NOTES

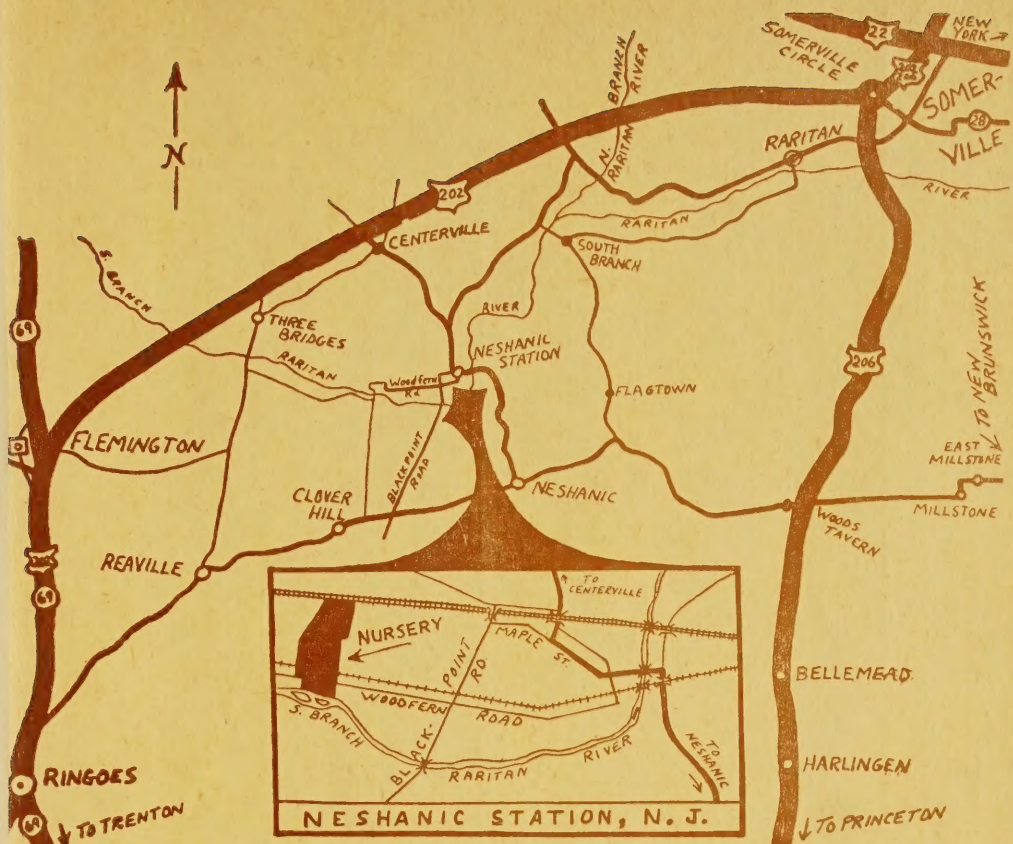

IS YOUR ADDRESS CORRECT?

If any changes are necessary, you can help us by making them on the address section of this catalog, clipping out the card and dropping it into the mail box. No stamp is required.

Perhaps you have no use for our catalogs and price lists. If so, we would appreciate your writing "Can't use 'em", "Don't want 'em", "File 13" or just plain "NO" across the address, clipping out the card and dropping it in the mail box. No stamp is required.

Thank you
